

AgSTAR Projects fuses technical application with innovative thinking to bring project results and success. We bring energy, flexibility and experience to each project we manage.

The AgSTAR Projects team is passionate about facilitating lasting and positive change within Australian agriculture and natural resource management.

We can help you with:

- Strategic planning
- Facilitation
- Mentoring, training & professional development
- Coordination & management of primary producer groups
- Extension project development & implementation
- Program logic, monitoring & evaluation – training & implementation
- Stakeholder consultation & community engagement
- Communication strategy & content creation
- Event management
- Policy review
- Case studies
- Research
